

Quarterly Sales Report — Q2 2025

Prepared by the Finance & Strategy Team

Hardware Performance

Hardware products showed the highest unit volume, with Part Epsilon exceeding forecasts by 18%. The Appliances segment remains stable with modest growth projected for Q3 2025.

Electronics & Appliances

The Electronics category continues to lead revenue generation, driven by strong demand for Device Delta in international markets. Widget Alpha maintained steady unit volume despite increased competition.

Introduction

This quarterly report summarizes the sales performance across all product lines for the period ending Q2 2025. Our teams have achieved significant milestones, and we are proud to present these results to our stakeholders.

Outlook

Looking ahead, the company plans to expand the Electronics lineup and invest in supply-chain improvements for the Hardware category. Management expects total revenue to grow 12% in the following quarter.

Table 1 — Product Sales Summary

Product	Category	Units Sold	Revenue (USD)
Widget Alpha	Electronics	1,240	\$62,000
